Overview

The world's most advanced keyboard.

An ideal partner for any high-end computer, the ultra-slim Logitech® diNovo Edge™ delivers the ultimate in feel and response. The revolutionary TouchDisc™ with hyper-speed scrolling and pixel-perfect control makes trackpads obsolete. A slim recharging base doubles as a keyboard stand. Work longer thanks to the longer-lasting Li-Ion batteries, and more securely via Bluetooth® wireless technology. Combine it with the world's most advanced mouse, the Logitech MX™ Revolution, for a premium desktop experience!

Elevate the Power of Windows Vista™

Designed with you in mind, this product provides easy access to key features of Windows Vista. [> View additional products that enhance your Windows Vista experience](#)

Features

PerfectStroke™ key system

A precision micro-scissors mechanism distributes typing force evenly across key surfaces, making every stroke natural and fluid.

Stylishly sleek

Laser-cut from a single piece of Plexiglass and set in a brushed aluminum frame, the diNovo Edge makes a bold statement. Only 11 mm thick!

Elegant charging base

Put your keyboard on display while charging via the slim base/stand. Advanced Li-ion batteries recharge faster and last longer.

[+] FEEDBACK

TouchDisc™ scrolling

A new type of touchpad, the TouchDisc™ unifies scrolling, selection, and cursor control. Scroll at hyperspeed with a touch of your finger.

Backlit stealth controls

Hidden hot keys light up at a touch, and fade into the background when not in use. The touch-sensitive volume slider gives you precise, fingertip audio control.

Bluetooth® wireless technology

Bluetooth® wireless technology ensures seamless, secure operation from up to 30 feet.
